WORK EXPERIENCE

Genify Technologies *Karachi, Pakistan*
Junior Web Developer Sep 2026 – Present

- Develop and maintain responsive, user-friendly websites using HTML, CSS, JavaScript, PHP, WordPress, and Laravel.
- Build and customize WordPress websites, themes, plugins, and pages according to project requirements.
- Develop and maintain Laravel-based web applications, implementing backend functionality, database integration, APIs, and dynamic features.
- Troubleshoot, debug, and optimize websites to improve performance, responsiveness, functionality, and cross-browser compatibility.
- Collaborate with the team to understand project requirements, implement new features, maintain existing websites, and deliver clean, scalable, and user-focused web solutions.

Gettz Pro *Karachi, Pakistan*
Junior SEO Executive Mar 2026 – Aug 2026

- Conducted keyword research and competitor analysis to identify ranking opportunities; executed On-Page, Off-Page, and basic Technical SEO.
- Optimized website content, meta titles/descriptions, headings, and internal linking to improve search visibility.
- Built and managed high-quality backlinks through white-hat link-building strategies.
- Monitored traffic, rankings, and performance via Google Search Console, Analytics, Ahrefs, and SEMrush; prepared SEO reports.
- Managed SEO tasks for WordPress websites, ensuring proper indexing and optimization.

PROJECTS

- **Local ERP & POS System:** Offline-first POS and Khata (credit) management system for small shop owners in Pakistan, targeting an underserved market with no reliable internet.
- **Aptech Chatbot (Node.js/React.jsx):** Built an interactive chatbot for a competition using Node.js and React.jsx during my time at Aptech Learning.
- **Movie Booking System (PHP/MySQL):** Developed a movie ticket booking system with listings, seat selection, and booking management using PHP and MySQL.
- **International Company Website (WordPress/Elementor Pro):** During my internship, built and delivered a fully responsive international website for a client company using WordPress and Elementor Pro.
